INSTRUCTIONS — READ THIS NOW

- Write your name, PID, current seat number, exam time, and the academic integrity pledge in the indicated space above and on the designated **answer sheet**. We will check for **all** of this identifying information before grading. Write your answers in the specified areas, or your work will not be graded.

- We will not be answering questions about the exam during the exam period. If any bugs are found in the exam after the exam period, the affected question(s) will be removed.

- You may use one 8.5"x11", doublesided sheet of notes that you create and bring to the exam room, but no other books, notes, or aids.

- You may not speak to any other student in the exam room while the exam is in progress (including after you hand in your own exam). You may not share **any information** about the exam with anyone who has not taken it.

- Turn off and put away all cellphones, calculators, and other electronic devices. You may not access any electronic device during the exam period. If you need to leave the room during the exam period, you must leave all electronic devices with an exam proctor.

- To receive full credit, your answers must be written neatly, legibly, and sufficiently darkly to scan well. Your solution will be evaluated both for correctness and clarity. Read the instructions for each part carefully to determine what is required for full credit. This test has NN problems worth a total of MM points.

- This exam is **45 minutes** long. Read all the problems first before you start working on any of them, so you can manage your time wisely.

- Please show your ID to a proctor when you hand in your exam. We will collect all exams at the **end** of the exam period, to minimize disruption for students who wish to use the full time for the exam.
